PEONIES

In dividing we get two sizes of plants: 2-3 eye size are used by growers of cut flowers and nursery men. They usually produce a crop of blooms the second year. They are larger than our lining out size.

The 3-7 eye size are the standard size used for retail trade. Larger divisions and clumps furnished at prices in proportion to size wanted.

If less than 25 plants of a kind are wanted, add 2c each. If less than 10 plants of a kind are ordered, add 5c each.
